Download & Extract files You do not need to restart fifa or a game, switching the screens will be enough.. The FHL-Scoreboard-Tool can only load compatible big-files. The proportions of the scoreboard textures, textes and the preview screen correspond to the fifa view.. The preview in the tool is not exactly the same view as in fifa, it is only for orientation and a better way to position elements.. Notes SCOREBOARD RUSSIA 2018 Compatible with all patches Size: 0 3 MB Installation Method 1.
